1 Background

1.1 Bank Holidays May 2025

A pharmacy must open to provide pharmaceutical services for its core contractual and supplementary hours each week. Where the pharmacy would ordinarily be open on a Bank Holiday (including Good Friday, Easter Sunday and, Christmas Day) the hours that it would ordinarily be open will, on those days, be treated as having been open for the purpose of counting the core contractual hours that week.

In England, the days that a pharmacy will not be required to open during May 2025 are:-

Early May Bank Holiday Monday 5th May 2025	Bank Holiday
Spring Bank Holiday Monday 26th May 2025	Bank Holiday

1.2 Direct to Open

Pharmacy contractors are encouraged to inform NHS England whether their premises will be open on Bank Holidays. This information is of critical importance to NHS England in order to enable it to plan and commission pharmacy provision during holiday periods.

To ensure sufficient provision of Pharmaceutical services NHS England may direct a pharmacy or pharmacies to open if the needs of people in the area are not met through voluntary or commissioned Bank Holiday opening hours, NHS England has the power to issue a direction requiring the pharmacy to open, but must if doing so ensure the pharmacy receives reasonable remuneration.

1.3 GP Out of Hours Centres

Hambleton, Richmondshire & Whitby

Whitby Hospital
Whitby

Ripon Community Hospital

Firby Lane
Ripon
North Yorkshire
HG4 2PR

1.4 Palliative Care Providers

To enable the prompt supply of specialist palliative care medicines, the demand for which may be urgent and/or unpredictable some CCG areas commission a number of pharmacies to maintain a stock in the event that they are required.

The pharmacy contractor is commissioned to stock a locally agreed range of palliative care medicines and makes a commitment to ensure that users of this service have prompt access to these medicines at all times.

The pharmacy also provides information and advice to the user, carer and clinician. They may also refer to specialist centres, support groups or other health and social care professionals where appropriate.

1.5 Minor Ailment Scheme Providers (MAS)

The treatment of minor ailments has been found to account for 18 - 20% of GP workload, with 90% of such consultations being solely for a minor ailment. It has also been shown that 8% of emergency department consultations involve consultations for minor ailments. Many of these consultations could be dealt with by Community Pharmacy staff who are already trained and competent in this area of care.

The scheme will encourage everyone to consult Pharmacy staff as a first point of call for a minor ailment. For a defined list of minor ailments, medication considered necessary for treatment will be provided free of charge for those patients who are exempt from prescription charges. Those who would usually pay for their prescriptions will still be encouraged to purchase their medication, as many of the treatments will cost less than the prescription charge.

Aims and intended outcomes

- To improve primary care capacity by reducing medical practice workload related to minor ailments.
- To improve access and choice for people with minor ailments by:

Promoting self-care through the pharmacy, including provision of advice, printed information relevant to the minor ailment and where appropriate medicines without the need to visit the GP practice;

Operating a referral system from local medical practices; and

Supplying appropriate medicines at NHS expense to patients who are exempt from prescription charges

1.6 Pharmacy First

The Pharmacy First service builds on the NHS Community Pharmacist Consultation Service which has run since October 2019. The consultation service enables patients to be referred into community pharmacy for a minor illness or an urgent repeat medicine supply.

The new Pharmacy First service, launched 31 January 2024, adds to the existing consultation service and enables community pharmacies to complete episodes of care for 7 common conditions following defined clinical pathways.

This new service is expected to free up GP appointments for patients who need them most and will give people quicker and more convenient access to safe and high quality healthcare. It includes the supply of appropriate medicines for 7 common conditions including earache, sore throat, and urinary tract infections, aiming to address health issues before they get worse.

Currently, NHS patients in England must visit their GP to access prescription only medication, meaning repeated GP visits and delays in treatment.

Community pharmacies offer a more convenient way to access healthcare that includes support with healthy eating, exercise, stopping smoking, monitoring your blood pressure, contraception, flu and covid vaccinations.

The [public perceptions of community pharmacy survey](#) found that over 90% of patients who sought guidance from a community pharmacy within the past year reported receiving good advice. The government and NHS England are committed to ensuring patients receive the right treatment at the right time. [The NHS Long Term Plan](#) highlights the need to make greater use of community pharmacists' skills and opportunities to engage patients. This is why we have launched a new Pharmacy First service.

The objectives of the Pharmacy First advanced service are:

- To offer patients who contact either,
 - NHS 111 (by telephone or on-line), or
 - 999 service, or
 - their own GP practice, or
 - a primary care out-of-hours service, or
 - an UEC setting (e.g. an ED, UTC, UCC),

the opportunity to access appropriate urgent care services in a convenient and easily accessible community pharmacy setting.

- To free up clinician capacity in the above settings, for the treatment of patients with higher acuity conditions.
- To identify ways that individual patients can self-manage their health more effectively with the support of community pharmacists and to recommend solutions that could prevent inappropriate use of UEC services in the future.
- To provide urgent access to patients who are not registered with a GP for treatment of low acuity minor illnesses, and to ensure equity of access to the emergency supply provision, regardless of the patient's ability to pay for the cost of the medicine requested.
- To further utilise the clinical skills of community pharmacy teams to complete episodes of care for patients and improve access, displacing activity from general practice and urgent care settings.
